

GoHighLevel Automation

Missed Call Text Back System

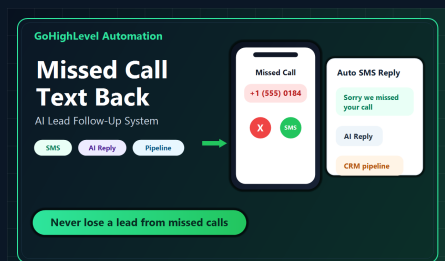

A practical automation setup that helps businesses reply faster, capture more leads, and move new inquiries into a GoHighLevel pipeline.

SMS

AI Reply

Pipeline

Never lose a lead from missed calls

Best for:

Local businesses, agencies, coaches, clinics, real estate, home services, salons, consultants and service-based businesses.

The Problem This Automation Solves

Many businesses lose leads because missed calls are not followed up quickly. This setup sends an automatic text back, starts follow-up, updates the CRM and helps your team respond faster.

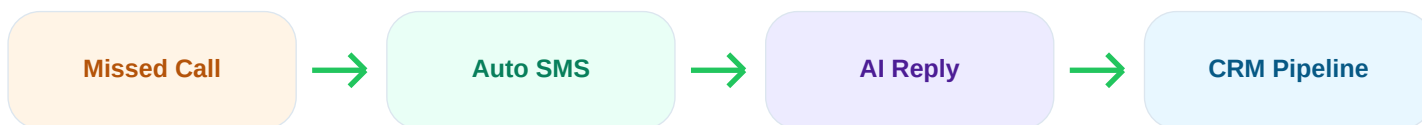

Before

A lead calls, no one answers, no follow-up happens, and the buyer may contact a competitor.

After

GoHighLevel sends a text back, starts AI or SMS/email follow-up, updates pipeline status and notifies your team.

Simple Lead Flow

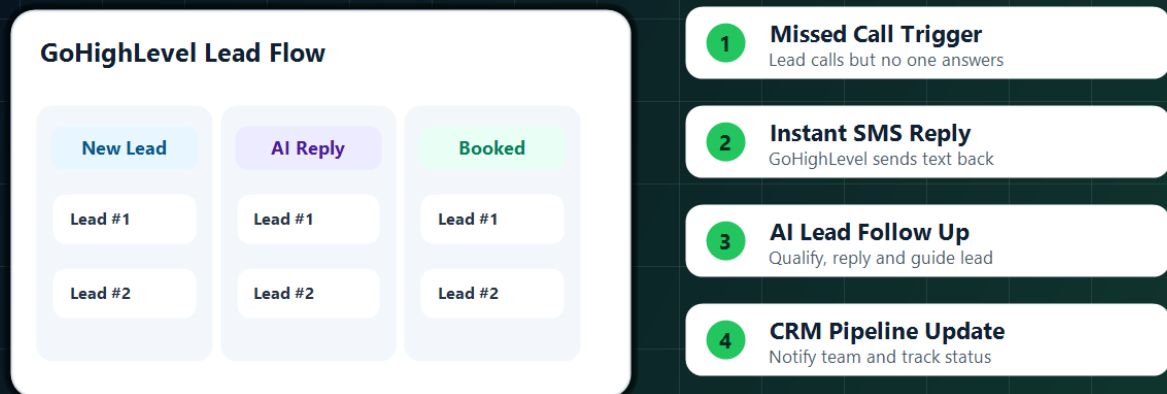

Result: faster replies, cleaner CRM tracking, better lead capture, and a more professional customer experience.

Workflow Setup

A clean GoHighLevel workflow should be easy to understand, test and scale. I structure automations so the logic is organized and practical.

Automation Workflow Setup

Missed calls, SMS follow-up, AI replies, pipeline updates and notifications

Trigger

Missed call or new lead activity starts the workflow.

Message

SMS/email copy is customized for your business.

AI Follow Up

AI or guided reply helps qualify and guide the lead.

CRM Update

Message me before ordering so I can review your GoHighLevel workflow requirements.

Tags, pipeline stage and notifications keep your team informed.

How I Set It Up

Before building, I review your goal, phone setup, pipeline, message copy and follow-up rules so the workflow matches your real business process.

1

Review Account

Check your GoHighLevel phone setup, pipeline, calendar and workflow requirements.

2

Build Automation

Set up missed call SMS, AI reply, tags, pipeline updates and notifications.

3

Customize Messages

Adjust SMS/email copy, timing, logic and conditions for your business.

4

Test and Deliver

Test the workflow and confirm leads are captured and routed correctly.

What I Need From You

- GoHighLevel access or invite
- Connected phone number status
- Missed call SMS and follow-up message preferences
- Pipeline, calendar, form or notification details

Ready to capture missed-call leads? Message me before ordering.
